**The Association of Mature American Citizens is the premier organization for conservative Americans over the age of fifty.**

Everything we do at AMAC is centered on advancing the American values of **faith, family, and freedom**. We believe in defending the United States Constitution, protecting our God-given liberties, upholding traditional values, and advocating for policies that serve the interests of mature Americans - all while providing exclusive cost-saving benefits and discounts to our more than **two million members**.

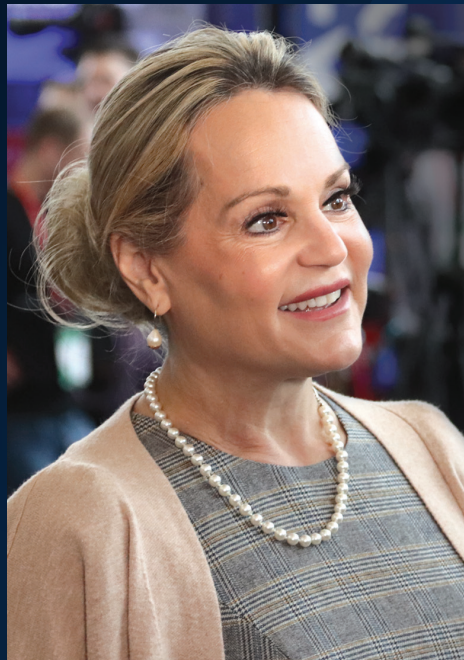

Our founder, Dan Weber, recognized that the other 50+ organizations used membership dollars to advance left-wing causes that hurt our country and did not serve the interests of their members. He believed conservative Americans deserved an alternative, and today AMAC is the leading conservative alternative to AARP.

AMAC's advocacy arm works tirelessly to protect seniors' Social Security and Medicare benefits, advocate for transparency in healthcare costs and lower prescription drug costs, and to bring an end to wasteful government spending. We also proudly champion free speech, religious liberty, the Second Amendment, election integrity, parental rights, and the sacred right to life.

AMAC members are active in all fifty states and have made over 1.8 million contacts to their elected officials that have changed the course of public policy in dozens of states.

AMAC members receive our renowned magazine, which offers robust commentary on the policies and cultural issues of top importance to our members.

**For conservative Americans over the age of fifty, the choice is clear - AMAC is the only organization that will proudly defend your values and leave this nation a better place for future generations.**
